BUSINESS PROCESS MODEL OF E-HAJJ IN INDONESIA

BY RAHMI IMANDA, INDRA BUDI, ACHMAD FAUZI AZMI, AHMAD FAUZIE, DANA INDRA SENSUSE

ABSTRACT

Hajj is an annual ritual by a capable Muslims by visiting and praying in several places in Saudi Arabia during Hajj season. In every hajj seasons, there was always have new problems. To solve this problems, information system could be considered as a solution, it will makes the pilgrimage process becomes organized and transparent since it connected and integrated to the electronic systems, called "e-Hajj".We present the process model for e-Hajj System in Indonesia for the perspective of Government, Citizen and Business. We use UML to illustrate the e-Hajj process and develop prototype of the model. .

Research Method

SPECIES A

According to Wikipedia, in academic publishing, a scientific journal is a periodical publication intended to further the progress of science, usually by reporting new research. There are thousands of scientific journals in publication, and many more have been published.
